## 69<sup>th</sup> Avenue and Anoka Street Rehabilitation Project

### **Parking**

We ask that you do not park cars on 69<sup>th</sup> Avenue or Anoka Street in construction areas from 7 a.m. to 7 p.m., Monday-Friday to allow for the contractor to have the space needed to complete the project.

### **Upcoming Construction**

A summary of construction to be expected this upcoming week on 69<sup>th</sup> Avenue & Anoka Street is as follows (note that dates are subject to changes due to weather, etc.):

Week of July 24:

- Traffic Light Revisions

The contractor will work on the traffic light revisions at the intersection of 69<sup>th</sup> Avenue and Central Avenue. This work includes moving a signal head to match the new location of the westbound left turn lane on 69<sup>th</sup> Avenue, replacing the loop detectors under the pavement that coordinate with the signal system, and the addition of another pedestrian push button on the corner of 69<sup>th</sup> Avenue and Central Ave for the crossing of 69<sup>th</sup> Avenue.

- Continue Concrete Work

The contractor will be finishing the concrete curb and gutter along the south side of 69<sup>th</sup> Avenue at the intersection of Siverts Lane. They will also be working on the concrete work for the trail/sidewalk on the east end of 69<sup>th</sup> Avenue at Stinson Boulevard. The recently installed concrete medians on 69<sup>th</sup> Avenue near the railroad tracks will be filled in with concrete as well.

- Prepare for Paving

The contractor will continue to work on the street grading to get the street down to the final grade before paving the first lift of asphalt.

### **Upcoming Construction Events**

Week of August 3:

- Pave the first lift of asphalt in the street
- Adjust utility castings in the street to final grade

Week of August 10:

- Pave the trail section
- Start working on restoration of the project area

### Parking

We ask that you do not park cars on 69<sup>th</sup> Avenue or Anoka Street in construction areas from 7 a.m. to 7 p.m., Monday-Friday to allow for the contractor to have the space needed to complete the project. Street parking causes delays for the contractor and increases the risk of damage to your personal vehicles. Please let us know as soon as possible if you plan on hosting any events (graduation, birthday, holidays, etc.) and we will do our best to work with our contractor to avoid any major inconveniences.

We also ask that you refrain from watering your lawn in areas where if the runoff could go onto the new concrete or gravel road.

Our project engineer, Brandon Brodhag, can be reached at (763) 238-8086 if you have questions.

See the project webpage at [fridleymn.gov/projects](http://fridleymn.gov/projects) or contact the City of Fridley Engineering Division at (763) 572-3554 if you need additional information. You may view a project map and sign up for updates to be emailed to you!
