

Craig Park Improvements Project

Construction Update

August 30, 2021

Current Events:

Even though we experienced heavy rains last week, the contractor got off to a great start on the project. Along with grading activities this week, Peterson Companies will begin cutting in the new trails and installing storm drain infrastructure.

As a reminder, a detailed schedule is on the project website at the link provided below.

During Construction

Once construction begins the park will be closed in the active work areas. We will keep access to the playground area until the contractor begins phasing work in the immediate vicinity. The City and Contractor will collaborate in minimizing the inconvenience to residents during construction. Please keep in mind that this type of construction may generate noise, dust and organic odors during grading activities. Generally, it can be a disruption to the neighborhood, but we are working together toward a common goal.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that people remain out of the immediate work zone. Please remember to be safe and be cautious wherever you see construction workers, equipment, and warning signs.

In the event of a construction emergency, the City of Fridley's after hours contact is (763) 427-1212.

This is an Anoka County Dispatch and they will direct your call.

Work Hours:

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval.

Contact Information:

Thank you in advance for your cooperation and patience during the project. The City of Fridley's Onsite Engineer, Nic Schmidt, can be contacted at (763) 572-3556 if you have any questions, or concerns.
