

# 2024 Street Rehabilitation Project

Construction Update

August 23, 2024

## **Watermain Replacement (Channel Road):**

This week, the Contractor completed replacement of the existing watermain along Channel Road from Mississippi Street (CSAH 6) to 66<sup>th</sup> Avenue and reinstated permanent water services along Channel Road north of 68<sup>th</sup> Avenue.

Next week, the Contractor will begin replacement of the existing watermain from 6670 Channel Road to approximately 600' north and reinstatement of permanent water services south of 66<sup>th</sup> Avenue.

## **Roadway Preparation (All Project Streets):**

This week, the Contractor completed grading and roadway subgrade preparation for the cul-de-sac on Lucia Lane and installed new concrete curb & gutter and driveways along Lucia Lane and Channel Road. The Contractor also installed the first lift of bituminous pavement along Norton Avenue. Next week, the Contractor will continue miscellaneous roadway preparation along all project streets.

***Please note that all construction scheduling is tentative, weather-dependent, and subject to change.***

## **Construction**

The Contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday-Friday. There is potential for occasional work outside of these hours upon City approval.

Please keep in mind that this type of construction may generate noise, dust, mud, and be disruptive to the area. Please be patient with the Contractor and contact us if you have any concerns we can help with.

## **Resident Access**

The City and Contractor will work to minimize inconvenience to residents during construction. Residents can expect to have driveway access during construction except when major construction events are occurring on their street. We ask that residents, including children, remain outside the immediate work zone and exercise caution navigating the project area wherever you see workers, equipment, or warning signs.
