Behavior Plan- The goal of discipline and guidance techniques in our program is to help children develop safe and appropriate ways of interacting with others and the environment. With this goal in mind, we need to know that the parent and child understand that inappropriate behavior will not be tolerated. The program staff will use the following steps to address inappropriate behavior.

Step 1: Redirection to correct the behavior and explanation of why it is not acceptable.

Step 2: If behavior continues, staff will issue a natural and logical consequence (loss of privileges, time-out, apologies, etc.). Following the consequence staff will speak to the child and decide what actions should be taken to correct the behavior. A written report will be filled out. Copies will be shown to the parent and kept on file.

Step 3: If corrective techniques are unsuccessful, parent will be called for a conference concerning the child's behavior.

Step 4: If corrective techniques are still unsuccessful, you will be asked to withdraw your child from the program.

A behavioral situation may occur where a parent may need to pick up their child from the program. If it appears a child may hurt themselves or others, the Recreation staff may restrain the child. The program reserves the right to suspend a child from the program without warning if that child poses physical or emotional harm to other participants or themselves.

Immediate removal from program activity is warranted if the participant physically attempts to cause injury to himself or others, or leaves the designated program area with the intent to run away or hide from staff.
